

Supply Chain Manager

- **Pharmaceutical Industry**
- **Working with global partners**
- **Additional benefits- health insurance allowance, extra leave days, additional employer superannuation, well-being grant and more**

About us

Specialised Therapeutics (ST) is an international biopharmaceutical company providing new specialist medicines and technologies to patients in Australia, New Zealand and South East Asia. As a company, we do this by partnering with global pharmaceutical companies, championing their products from pre-registration to full commercialisation in these regions. At ST, our primary objective is to enable people with unmet medical needs unrestricted access to breakthrough, innovative therapies.

The Role

We have recently experienced high growth leading to the need to recruit an experienced Supply Chain Manager on a full-time basis to join our team based out of our head office in Kew. Reporting directly to the CEO, this new position will take ownership and accountability for end to end supply chain by playing a lead role in executing the supply chain strategy and operations in order to maximise process efficiency whilst ensuring exceptional quality and service is provided to all stakeholders. This includes the packaging of several products in Singapore. The successful candidate will have a commercially driven mindset to act across strategic, tactical and operational levels to ensure optimal supply, distribution and inventory levels are maintained. This role is crucial in developing and maintaining good relationships with our partners and vendors to enhance and ensure best outcomes for ST globally.

In addition, other key responsibilities of this role include:

- Developing and driving the sales and operations planning process, working closely with the Commercial team to ensure the demand forecast accuracy
- Preparing the supply plan with focus on maintaining adequate stock levels while promoting stock turns and cost efficiency
- Overseeing the procurement of all products and components. Maintaining and promoting positive relationships with suppliers to assure reliable, timely and cost-effective supply
- Leading the customer service department to achieve excellent customer satisfaction levels both internally and externally
- Overseeing inventory controls across multiple locations, including Singapore, and working closely with 3PLs to ensure best practice management of inventory and suppliers to 3PL service providers
- Working with logistics service providers to ensure an optimal delivery network, includes taking responsibility for delivery and importing costs

What we are looking for

The successful candidate will leverage their prior supply chain experience to implement best practice and continuous improvement methodologies and tools to enhance business execution and drive process improvement. Naturally, you will be a highly motivated and driven professional with outstanding people skills and be a demonstrated thought leader.

You will also have:

- Bachelor's degree in Supply Chain, Finance, Engineering, Life-Sciences or a related field
- Minimum of 5 years working experience in a supply chain role
- Prior people management experience

Specialised
Therapeutics®

- Direct, hands-on experience working in at least two of the following cross functional areas is highly preferred: Quality Control, Supplier Quality, Manufacturing, Technical Services or Customer Service is highly preferred
- Experience building internal and external relationships and working with external vendors
- Overseas pharmaceutical and healthcare industry experience would be highly desirable
- Current knowledge of the Australian and New Zealand therapeutic regulatory requirements (Good Distribution Practices) would be advantageous.

This is an exciting opportunity for a talented individual who would like to take ownership for this newly created role and join a collaborative team within an innovative organisation. We provide a supporting and stimulating work environment and provide wholesome employment packages to our individuals including additional leave days, a very generous hospital insurance allowance, additional employer superannuation along with many other benefits.

If you believe you have the appropriate experience, energy and business acumen for this position, please submit your resume and covering letter to kdecarolis@stbiopharma.com

Please note that final applicants for this position will be asked to consent to a criminal record check. Please note that people with criminal records are not automatically barred from applying for this position. Each application will be considered on its merits.

ST is an equal opportunity workplace.
