Medical Manager / Senior Medical Manager Oncology

- Exciting opportunity with an employer of choice
- Growth opportunities in Oncology and other specialised areas
- Full Time, Kew Melbourne Location

About Us

Specialised Therapeutics (ST) is an independent international biopharmaceutical company providing new specialist medicines and technologies to patients in Australia, New Zealand and South East Asia. As a company, we do this by partnering with global pharmaceutical companies, championing their products from pre-registration to full commercialisation in key regions. At ST, our primary objective is to enable people with unmet medical needs to access breakthrough, innovative therapies.

Culture

ST has carefully cultivated a work environment in which our employees are constantly challenged to do their best and think differently. Our company is determinedly inquisitive, perceptive and courageous, and nurtures these qualities by employing people who share our passionate interest in making a difference in patients' lives. ST prides itself on a friendly, collaborative, open, dynamic and inclusive team, with a permanent focus on the why.

The Role

We are currently seeking to appoint an experienced Medical Manager to provide scientific and medical information to our internal and external customers on the appropriate usage of our products and developments within a disease portfolio across Australia. This position reports through to the Medical Director and is an exciting opportunity for a professional, passionate and friendly person to join our close-knit team located in Kew.

The successful candidate will leverage their expertise whilst working alongside commercial in shaping brand strategies by ensuring all written documents and procedures adhere to relevant guidelines and provide support to the regulatory affairs department. The Medical Manager will also play an important role in positioning new products/indications with our external customers.

What we are looking for

You will enjoy working in consultation with cross-functional teams to identify, plan and implement agreed strategies and initiatives. Your ability to communicate complex medical and scientific information, yet balance clinical objectives with business opportunities will also ensure your success.

Naturally, you will be a strong influencer, proactive self-starter and have exceptional communication and presentation skills. You will have the energy and motivation to lead in a dynamic growing environment and you are comfortable having peer level conversations with healthcare professionals. In addition you will have:

- Relevant tertiary qualifications, ideally MBBS, PhD or B.Pharm or similar
- A minimum of 5 years experience in medical within the pharmaceutical industry
- Track record developing, communicating and implementing comprehensive medical affairs plans
- Prior exposure to new product registrations and pre-launch activities
- Experience in delivering complex messages to various internal and external customers with a track record of effective presentations
- In-depth knowledge of Medicines Australia Code of Conduct
